**Subject:** Inquiry re: Mexican Diplomatic Note

Good afternoon!

I'm writing a story about the diplomatic note Mexican Foreign Relations Secretary Alicia Bárcena said was sent to the U.S. government expressing concerns about the buoy barrier on the Rio Grande River (and also installation of razor wire coils and barrels on an island in the Rio Grande). Apparently Bárcena also said that Mexico is sending an inspection team to the Rio Grande to see if any of these projects are extending into Mexican territory.

Does the OAG have a comment in response?

My story deadline is 5 p.m. ET today.

Thank you kindly.
