WC's: Please share the below with the patrol officers.

See below. This is the direction for the troops – while your out there patrolling, get out of cars, look for out of place boxes and things, look in and around trash cans etc - anywhere that is suitable to hide

weapons to use against us – cinder blocks, bricks, sticks, rocks, pyros, anything that they can use against us during the protest.

Do we know the protest routes? I don't think it's the protestors but the people intent on committing violence mix in with the protestors and use these weapons against us.

See this article at NYC – patrol officers sweep areas where looting intel and find hidden weapons and pyros to use later during protests.
