RE: Public Information Request for Data on School Resource Officers

Dear Mr. Topper:

We received your Public Information Request for shift schedules and other types of information on School Resource Officers employed by the Sheriff's Department. Although the information you have requested will primarily be releasable under the Public Information Act, your request is for information over a 10 year period. As a result, your request will generate a large volume of records. Most of the records you requested are in archives and are not maintained electronically. They must be manually located and copied. This will result in a high estimate of charges. Therefore, we are requesting that you narrow down your request under the requirements of Texas Government Code Section 552.222 (b) that we may search for and retrieve the records that you have requested in a timely manner.

Under the requirements of Texas Government Code Section 552.222(d), you have 61 days to respond to this letter. If you do not respond to this letter within 61 days, your Public Information Act request will be considered to be withdrawn and will not be processed further.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Elizabeth Lutton".

Elizabeth Lutton,
Legal Advisor
