Email: sgaylor@police.gurnee.il.us

GURNEE - The Gurnee Police Department has partnered with Gurnee Mills to enhance security measures at the area's largest shopping center. Increasing safety for shoppers and employees is a top priority, prompting Gurnee Mills to add the Flock Safety Automated License Plate Reader (ALPR) system on September 13, 2022. Since its installation two months ago, Gurnee Police have made seven arrests and recovered four stolen vehicles with the assistance of the ALPR system. Earlier this year, Gurnee Mills participated in the Community Partnership for Safety program by donating money for a new police canine; they are expanding their participation with the installation of the Flock Safety cameras.

The cameras proactively prevent crime by sending a real-time alert to law enforcement when a stolen car or known wanted suspect from a state or national crime database enters the jurisdiction. The system can also send alerts if a vehicle associated with a missing person in an AMBER or Silver Alert is detected.

The ALPR system is just one example of how other Gurnee businesses and neighborhood HOAs can join the Community Partnership for Safety program. The local program encourages Gurnee businesses and residents to work together to reduce crime and maintain a safe community. Those interested in getting Flock Safety cameras for their business or neighborhood are encouraged to contact the Crime Prevention office at the Gurnee Police Department.

"We share an invaluable partnership with Gurnee Mills, and we are grateful for their support as we work together to minimize crime. Using Flock Safety is a crime prevention measure to help stop crimes in progress, provide leads to further our investigations, and discourage future crimes. Gurnee has always been a safe community, and Flock Safety is helping to keep it that way. The amount of success we've seen in the past two months is encouraging, and

we hope more businesses and neighborhood HOAs will consider installing the system. ," said Chief Brian Smith of the Gurnee Police Department.

The cameras are built by Flock Safety, a public safety technology company that helps neighborhoods, communities, and law enforcement work together to fight crime. The cameras aid law enforcement investigating crime by providing objective evidence such as license plates and vehicle characteristics and only storing the information for thirty days. Any law enforcement searches within the ALPR system require justification and are only used to solve and reduce property and violent crime. The cameras are not intended for minor traffic or parking violations, and it does not have facial recognition capabilities.

Jordan has obtained an expanded version of FLOCK from CMD Kalinowski. If you are interested in this additional resource, let Conradi or myself know. If you are interested in seeing more - get with Jordan.

Here's a peak at what the expanded access shows.
Thank you,
Tricia

Subject: Automatic License Plate Recognition (ALPR) For State and Municipal Applications ? Free Webinar
Automatic License Plate Recognition (ALPR) For State and Municipal Applications

** Automatic License Plate Recognition (ALPR) is becoming an increasingly valuable tool for law enforcement agencies.

** The ability to investigate, track, monitor and analyze data in real time has never been faster or easier. WSS Integrated Technologies is hosting a free webinar to demonstrate how ALPR can bring value to your state or municipality.

** Here is what we will cover:

- * License plate verifications - Verify license plate reads against hotlists and permit lists of vehicle plates to help you locate vehicles of interest and manage access to your parking space.
- * Suspicious vehicle pattern detection - Trigger alarms and workflows when cameras repeatedly detect a vehicle of interest in an area according to pre-set thresholds.
- * Vehicle speed estimates - Estimate the speed of vehicles to trigger alerts and reports to better detect road usage violations.
- * Vehicle classification and count - Count and classify vehicles on the road by type for a better view of traffic volumes hourly, daily, monthly, and annually.
- * Travel time reports - Gather data needed to generate travel time reports based on an origin-destination matrix calculation.
- * Use Cases ? Demonstrate how other law enforcement agencies are using this technology to decrease cost and increases safety.

Subject: Free Webinar for Automatic License Plate Recognition Solutions
Sign up today!

** Automatic License Plate Recognition (ALPR) is becoming an increasingly valuable tool for law enforcement agencies.

**

The ability to investigate, track, monitor and analyze data in real time has never been faster or easier. WSS Integrated Technologies is hosting a free webinar to demonstrate how ALPR can bring value to your state or municipality.

**

** Here is what we will cover:

- * License plate verifications - Verify license plate reads against hotlists and permit lists of vehicle plates to help you locate vehicles of interest and manage access to your parking space.
- * Suspicious vehicle pattern detection - Trigger alarms and workflows when cameras repeatedly detect a vehicle of interest in an area according to pre-set thresholds.
- * Vehicle speed estimates - Estimate the speed of vehicles to trigger alerts and reports to better detect road usage violations.
- * Vehicle classification and count - Count and classify vehicles on the road by type for a better view of traffic volumes hourly, daily, monthly, and annually.
- * Travel time reports - Gather data needed to generate travel time reports based on an origin-destination matrix calculation.
- * Use Cases ? Demonstrate how other law enforcement agencies are using this technology to decrease cost and increases safety.

Meet Rekör Blue?

The premier ALPR app designed for law Enforcement. ALPR whenever and wherever it's needed.

Rekor Blue is Built using the same AI recognition engine as Rekör Scout? (https://cNq404.na1.hubspotlinks.com/Btc/ZT+113cNq404/VX1gKI22ViFYVMPbNC6b2QzwW2jjqKJ4F0ygIM9V8k3p2SV1-WJV7Cg-0GW8GJ3g6cTJqCW59b-xL4RHCKW4TcBw1229V7FVXQPL7gYqC-WW3XINVYQ5bHbCW6bBLx2X3KR1rW1HfEv177C90W4dYpB89L4SW5TBQH1NcT2vW2mPmZG65dQ5W1vGucY3k5pMpW526p831yV_BFW1-pZ-z6dhB-sW3SM8K4cB0W25p1TR6gTTSW5QwfaReaHdGdVpH4gT7XqJALVnmntL_4dHmVb8kY41zaj5NW86r1W4TzAdVYPb61d4Cw_W4bMZp6VjQTPW2b1gKf5XLFrW76PG62GZ3M3Vz9QF83PWjj1W8g9Kl68Cwy3Xa3mXX1)) giving officers access to accurate license plate recognition, whenever and wherever they need, even without network connectivity. With Blue officers can capture plates, conduct searches, and receive instant hotlist alerts.

Walking Patrol

Use your phone to scan plates and received alerts when hot listed plates are detected.

Scene Investigation

Easily capture all vehicles involved or within the canvas area through a labeled session.

Covert Operations

Run the app discreetly while undercover or in plain clothes to capture plates without drawing attention.

Subject: Advanced Automatic License Plate Webinar for law enforcement
Free webinar, sign up today!

** Automatic License Plate Recognition (ALPR) is becoming an increasingly valuable tool for law enforcement agencies.

**

The ability to investigate, track, monitor and analyze data in real time has never been faster or easier. WSS Integrated Technologies is hosting a free webinar to demonstrate how ALPR can bring value to your state or municipality.

**

** Here is what we will cover:

- * License plate verifications - Verify license plate reads against hotlists and permit lists of vehicle plates to help you locate vehicles of interest and manage access to your parking space.
- * Suspicious vehicle pattern detection - Trigger alarms and workflows when cameras repeatedly detect a vehicle of interest in an area according to pre-set thresholds.
- * Vehicle speed estimates - Estimate the speed of vehicles to trigger alerts and reports to better detect road usage violations.
- * Vehicle classification and count - Count and classify vehicles on the road by type for a better view of traffic volumes hourly, daily, monthly, and annually.
- * Travel time reports - Gather data needed to generate travel time reports based on an origin-destination matrix calculation.
- * Use Cases ? Demonstrate how other law enforcement agencies are using this technology to decrease cost and increases safety.

Dear Police1 Member,

Research evaluating human performance shows that stress influences the way people perceive and respond to their environment. It is imperative law enforcement agencies provide awareness training on human capabilities and limitations while operating under stressful situations and incorporate evidence-based training methods that are intended to increase performance in the field.

Join us for a live event on February 10 (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=a924c13d3f&e=2004144117>), sponsored by VirTra, in which we will share insights from neuroscience and psychology to improve police decision-making under stress.

Register now (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=8b307556ca&e=2004144117>).

Stay safe,

? The Police1 Team

FEBRUARY 2022

PRODUCT RELEASE DIGEST

This monthly update will keep you informed about all the latest product improvements and releases to ensure you get the most out of your agency's partnership with Flock Safety.

Highlights

https://info.flocksafety.com/e/892161/ng-roles-to-assign-permissions/wn9yb5/168879604?h=Yr0lVaGadKiDmqtvPpTu97YRS_IRafyh50F8FXozWZI

Introducing: User Roles and Permissions

Could your Flock Safety users be assigned more effectively? Flock suggests the following user role set up: Administrator, Dispatch, Patrol, and Detective/Investigator. By designating these role types, you provide the proper level of access for each member of your team, leading to easier account administration. Learn more about how admins can set up user roles and permissions for maximum efficiency today!

Set Up User Roles

https://info.flocksafety.com/e/892161/ng-roles-to-assign-permissions/wn9yb5/168879604?h=Yr0lVaGadKiDmqtvPpTu97YRS_IRafyh50F8FXozWZI

Q1 2022 Product Launch

Join our team on 2/23 at 1 PM EST / 10 AM PST, for a preview of several new product developments built based on feedback from you, our valued customers. We will be joined by guest speaker Sgt. Adam Senf, Technology Coordinator of Vacaville Police Department, and cover the following:

New software package that makes Legacy LPR and IP cameras smarter with Vehicle Fingerprint technology and Advanced Search Capabilities

New location-flexible hardware that offers easy deployment

Insight into our product roadmap, and how you can help craft our product for the better!

Nashville Murder Suspect Arrested in Cobb County

After a murder suspect went on the run from Nashville, Cobb County Police Department was able to use Flock Safety to locate the car and the suspects. After a dramatic car chase, the officers were finally able to disable the vehicle and pin it in, allowing them to arrest both suspects and put them in custody. Learn more about this story below.

FEBRUARY 2022

PRODUCT RELEASE DIGEST

This monthly update will keep you informed about all the latest product improvements and releases to ensure you get the most out of your agency's partnership with Flock Safety.

Highlights

https://info.flocksafety.com/e/892161/ng-roles-to-assign-permissions/wn9yb5/168879604?h=Yr0lVaGadKiDmqtvPpTu97YRS_IRafyh50F8FXozWZI

Introducing: User Roles and Permissions

Could your Flock Safety users be assigned more effectively? Flock suggests the following user role set up: Administrator, Dispatch, Patrol, and Detective/Investigator. By designating these role types, you provide the proper level of access for each member of your team, leading to easier account administration. Learn more about how admins can set up user roles and permissions for maximum efficiency today!

Set Up User Roles

Q1 2022 Product Launch

Join our team on 2/23 at 1 PM EST / 10 AM PST, for a preview of several new product developments built based on feedback from you, our valued customers. We will be joined by guest speaker Sgt. Adam Senf, Technology Coordinator of Vacaville Police Department, and cover the following:

New software package that makes Legacy LPR and IP cameras smarter with Vehicle Fingerprint technology and Advanced Search Capabilities

New location-flexible hardware that offers easy deployment

Insight into our product roadmap, and how you can help craft our product for the better!

Nashville Murder Suspect Arrested in Cobb County

After a murder suspect went on the run from Nashville, Cobb County Police Department was able to use Flock Safety to locate the car and the suspects. After a dramatic car chase, the officers were finally able to disable the vehicle and pin it in, allowing them to arrest both suspects and put them in custody. Learn more about this story below.

Free webinar, sign up today!

** Automatic License Plate Recognition (ALPR) is becoming an increasingly valuable tool for law enforcement agencies.

**

The ability to investigate, track, monitor and analyze data in real time has never been faster or easier. WSS Integrated Technologies is hosting a free webinar to demonstrate how ALPR can bring value to your state or municipality.

**

** Here is what we will cover:

- * License plate verifications - Verify license plate reads against hotlists and permit lists of vehicle plates to help you locate vehicles of interest and manage access to your parking space.
- * Suspicious vehicle pattern detection - Trigger alarms and workflows when cameras repeatedly detect a vehicle of interest in an area according to pre-set thresholds.
- * Vehicle speed estimates - Estimate the speed of vehicles to trigger alerts and reports to better detect road usage violations.
- * Vehicle classification and count - Count and classify vehicles on the road by type for a better view of traffic volumes hourly, daily, monthly, and annually.
- * Travel time reports - Gather data needed to generate travel time reports based on an origin-destination matrix calculation.
- * Use Cases ? Demonstrate how other law enforcement agencies are using this technology to decrease cost and increases safety.

Dear Police1 Member,

Friday's ambush and shooting of five Phoenix police officers, with four others wounded, offers a stark reminder of the dangers facing our nation's LEOs. In tomorrow's SWAT eNewsletter (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=ea2024b832&e=2004144117>), Police1 columnist Lt. Dan Marcou offers a "when/then/why" analysis for making the kinds of challenging tactical decisions that the Phoenix cops faced. We also share the results of a survey on crisis negotiation nomenclature and training.

PLUS, we put LE snipers in the spotlight with a review of Savage Arms' new Impulse rifle and a writeup of a SHOT Show LEEP session on what makes a successful LE sniper.

Subscribe today (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=a66a8e2755&e=2004144117>) to get a copy in your inbox tomorrow.

Stay safe,

? The Police1 Team

Join us on Wednesday, 3/9 @ 1 pm EST / 10 am PST, for an educational webinar highlighting how you can expand your Flock footprint through community engagement ? register here

https://info.flocksafety.com/e/892161/5249-WN-78tIvxhZTCeeWBxhyZ6tyw/xy4vqk/181307310?h=xBJbghLAb1W2EpsCXnU1eG8WH0NRxsZEIfX5Dn_2o5o

.

Guest speakers include Redlands PD Deputy Chief of Police Travis Martinez, who will give you insight into his experience in getting his city on board with having an ALPR program. We will highlight:

The benefits of having an ALPR program in your city

How you can gain community support before buying an ALPR system

#Solved cases that inspired the local community to rally around the Redlands PD ALPR program and invest in privately-funded cameras of their own

Hope to see you there!

Join us on Wednesday, 3/9 @ 1 pm EST / 10 am PST, for an educational webinar highlighting how you can expand your Flock footprint through community engagement ? register here

https://info.flocksafety.com/e/892161/5249-WN-78tIvxhZTCeeWBxhyZ6tyw/xy4vqk/181307310?h=xBJbghLAb1W2EpsCXnU1eG8WH0NRxsZEIfX5Dn_2o5o

.

Guest speakers include Redlands PD Deputy Chief of Police Travis Martinez, who will give you insight into his experience in getting his city on board with having an ALPR program. We will highlight:

The benefits of having an ALPR program in your city

How you can gain community support before buying an ALPR system

#Solved cases that inspired the local community to rally around the Redlands PD ALPR program and invest in privately-funded cameras of their own

Hope to see you there!

Dear Police1 Member,

When asked to select the least satisfying thing about working in law enforcement, 60% of the 2,376 respondents to Police1's recent State of the Industry survey chose poor agency leadership. If there's a silver lining to this seemingly damning statistic, it's that the fixes are simple. They don't involve big ticket items or revamps of policies. Many of the changes cost nothing at all.

Join us for an interactive webinar on March 9 (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=13d694ac13&e=2004144117>), sponsored by Utility (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=f957f19b60&e=2004144117>), during which our expert panel will reveal the simple changes that can immediately improve officer morale and retention.

Reserve your place for this free learning event (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=ae6dbe3998&e=2004144117>).

Stay safe,

? The Police1 Team

Dear Police1 Member,

When asked to select the least satisfying thing about working in law enforcement, 60% of the 2,376 respondents to Police1's recent State of the Industry survey chose poor agency leadership. If there's a silver lining to this seemingly damning statistic, it's that the fixes are simple. They don't involve big ticket items or revamps of policies. Many of the changes cost nothing at all.

Join us for an interactive webinar on March 9 (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=13d694ac13&e=2004144117>), sponsored by Utility (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=f957f19b60&e=2004144117>), during which our expert panel will reveal the simple changes that can immediately improve officer morale and retention.

Reserve your place for this free learning event (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=ae6dbe3998&e=2004144117>).

Stay safe,

Dear Police1 Member,

Body-worn cameras are an increasingly important tool for law enforcement. But with limited budgets, they can sometimes be difficult to obtain. The answer may be found in upcoming grant opportunities.

Register now (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=5ba2960025&e=2004144117>) for a March 17 webinar to learn about key considerations when planning your agency's BWC grant application.

Stay safe,

? The Police1 Team

Dear Police1 Member,

Body-worn cameras are an increasingly important tool for law enforcement. But with limited budgets, they can sometimes be difficult to obtain. The answer may be found in upcoming grant opportunities.

Register now (<https://police1.us17.list-manage.com/track/click?u=fbf2eef5cbb7010c3dab66a8e&id=5ba2960025&e=2004144117>) for a March 17 webinar to learn about key considerations when planning your agency's BWC grant application.

Stay safe,

? The Police1 Team

Join us on Wednesday, April 20th, at 1 PM ET / 10 AM PT for an educational webinar highlighting how to scale crime-fighting technology that drives results for your agency without creating administrative headaches ? register here

<https://info.flocksafety.com/e/892161/7550-WN-XtdjXHE2T0WeWBTMaPMhSg/22wm23z/218106551?h=pyePbAxJnVtgjKu3Tm1Q4xDu7yTdDOfB4EYu9Lnkvks>

Guest speakers include Sergeant Brian Safris from Wichita PD, who will share insight into his experience creating a Flock Safety task force, which has resulted in multiple felony arrests and over \$1.1M in recovered stolen property. We will also cover:

How to select and adopt technology that produces data-driven results for your agency

Scaling your tech stack to maximize efficiency and adoption while reducing ?clutter?

Practical applications and tips for property crime and violent crime reduction using flexible ALPR solutions

Hope to see you there!

JUNE 2022

NEWSLETTER

This monthly newsletter is here to keep you informed about all the latest product enhancements, success stories, and events at Flock Safety.

https://info.flocksafety.com/e/892161/solutions-education/28csjhp/269917460?h=L8HN6VvAmMFUw2f00cLNeDVxUYcoYChd7LYFBz_xi8

Eliminate Crime. Build Community.

Did you know that Flock Safety works with over 45 K-12 school districts and universities nationwide to help prevent crime on campus? Traditional cameras don't have the ability to prevent offenders from entering campus with real-time alerts, gleaned from objective evidence such as license plates. Flock Safety also helps campuses gain actionable evidence to help solve crimes such as motor vehicle theft, drug trafficking, parking lot break-ins, and more. Interested in learning more? Check out this story

https://info.flocksafety.com/e/892161/university-indiana-7452774001-/28csjhs/269917460?h=L8HN6VvAmMFUw2f00cLNeDVxUYcoYChd7LYFBz_xi8

on how Purdue University has partnered with Flock Safety and their local police department to reduce crime in the community.

If there's a school district or university that could benefit from proactive alerts, please reach out to us below ? our school safety team will be in touch.

Get in Touch

https://info.flocksafety.com/e/892161/solutions-education/28csjhp/269917460?h=L8HN6VvAmMFUw2f00cLNeDVxUYcoYChd7LYFBz_xi8

Live video is here!

Did you know that Flock Safety offers the ability to connect third-party IP cameras from across jurisdictions (public or private) and display them alongside Hot List alerts, AVL data, traffic conditions, and more, at no cost?

When you combine actionable evidence from a Flock ALPR with Livestream Video + VMS, you can:

Access live on-scene video from your Dispatch Map and Live Video Gallery for better incident response and management

Unlock enhanced situational awareness for more leads, faster incident response, and increased officer safety

Build stronger cases with video replay, 7-day video retention, and MP4 downloads

Get Started with Flock Safety

Flock helps Locate Missing Woman in Northport

A 34-year-old woman went missing on Friday, June 3rd, and the only information the Local PD had of her last known location was driving from Northport to Alexander City. However, through the use of Flock Safety cameras, police located her safely. Learn more below.

Watch Now

With thousands of students, faculty, and visitors passing through school campuses each day, colleges and universities are a magnet for break ins, assault, drug trafficking, and other serious offenses.

On Wednesday, July 27th, at 2 PM ET / 11 AM PT we are discussing how the intersection of technology and community partnerships is essential to proactively securing your campus perimeter against threats ? register here

<https://info.flocksafety.com/e/892161/8946-WN-iahMbnaNSLOKImTSKbM-0A/2dhymk2/312831592?h=8OvI7ISoRZVNZTTHyl8kNpcZ6wxhb3ZvQq9Os1hazNk>

. Join Dr. Jack Moorman, Director of Safety & Risk Management and Campus Police of Presbyterian College, as we cover:

The everyday challenges of today's school camera networks

What it looks like to successfully join forces with local schools and universities to better protect students, faculty, and staff

Real-life stories detailing solved cases of campus violence

How agencies are working with school districts to use ALPR tools to prevent and solve more crime in the community

Hope to see you there!

Subject: Join us for a Live Webinar on Combating Campus Violence
<https://info.flocksafety.com/e/892161/8946-WN-iahMbnaNSLOKImTSKbM-0A/2dhymk2/312831592?h=8OvI7ISoRZVNZTTHyl8kNpcZ6wxhb3ZvQq9Os1hazNk>

With thousands of students, faculty, and visitors passing through school campuses each day, colleges and universities are a magnet for break ins, assault, drug trafficking, and other serious offenses.

On Wednesday, July 27th, at 2 PM ET / 11 AM PT we are discussing how the intersection of technology and community partnerships is essential to proactively securing your campus perimeter against threats ? register here

<https://info.flocksafety.com/e/892161/8946-WN-iahMbnaNSLOKImTSKbM-0A/2dhymk2/312831592?h=8OvI7ISoRZVNZTTHyl8kNpcZ6wxhb3ZvQq9Os1hazNk>

. Join Dr. Jack Moorman, Director of Safety & Risk Management and Campus Police of Presbyterian College, as we cover:

The everyday challenges of today's school camera networks

What it looks like to successfully join forces with local schools and universities to better protect students, faculty, and staff

Real-life stories detailing solved cases of campus violence

How agencies are working with school districts to use ALPR tools to prevent and solve more crime in the community

Hope to see you there!

Subject: Free Webinar - ALPR AutoVu Clouddrunner

AutoVu Clouddrunner is an investigation system that helps law enforcement leverage ALPR to gather better nighttime leads and solve more crimes.

AutoVu Clouddrunner is a vehicle-centric investigation system that helps law enforcement and public safety agencies leverage purpose-built ALPR to gather better nighttime leads and solve more crimes.

It includes high-performance ALPR cameras with edge-based analytics that deliver optimal performance and vital vehicle evidence 24 hours a day. That means even in total nighttime darkness or the worst weather conditions, AutoVu Clouddrunner delivers unbeatable license plate read accuracy and the highest quality images that clearly show the most important vehicle details. This ensures your officers can find the information they need to quickly apprehend suspects, close cases, and make tomorrow safer.

Here's what you need to know about Clouddrunner

- ? Even with no witnesses around, the ALPR cameras collect vehicle data 24/7
- ? Every vehicle within a camera's view is immediately captured and logged
- ? Clear nighttime license plate and context images remove any guesswork
- ? Intuitive filter functions simplify searches even when limited information is available
- ? Officers are immediately alerted to wanted vehicles any time of the day
- ? Other vehicle details such as location, speed and color offer more vital leads

Subject: Free Webinar - ALPR AutoVu Clouddrunner

AutoVu Clouddrunner is an investigation system that helps law enforcement leverage ALPR to gather better nighttime leads and solve more crimes.

AutoVu Clouddrunner is a vehicle-centric investigation system that helps law enforcement and public safety agencies leverage purpose-built ALPR to gather better nighttime leads and solve more crimes.

It includes high-performance ALPR cameras with edge-based analytics that deliver optimal performance and vital vehicle evidence 24 hours a day. That means even in total nighttime darkness or the worst weather conditions, AutoVu Clouddrunner delivers unbeatable license plate read accuracy and the highest quality images that clearly show the most important vehicle details. This ensures your officers can find the information they need to quickly apprehend suspects, close cases, and make tomorrow safer.

Here's what you need to know about Clouddrunner

- ? Even with no witnesses around, the ALPR cameras collect vehicle data 24/7
- ? Every vehicle within a camera's view is immediately captured and logged
- ? Clear nighttime license plate and context images remove any guesswork
- ? Intuitive filter functions simplify searches even when limited information is available
- ? Officers are immediately alerted to wanted vehicles any time of the day
- ? Other vehicle details such as location, speed and color offer more vital leads

Subject: Register Now - ALPR Webinar

AutoVu Clouddrunner is an investigation system that helps law enforcement leverage ALPR to gather better nighttime leads and solve more crimes.

AutoVu Clouddrunner is a vehicle-centric investigation system that helps law enforcement and public safety agencies leverage purpose-built ALPR to gather better nighttime leads and solve more crimes.

It includes high-performance ALPR cameras with edge-based analytics that deliver optimal performance and vital vehicle evidence 24 hours a day. That means even in total nighttime darkness or the worst weather conditions, AutoVu Clouddrunner delivers unbeatable license plate read accuracy and the highest quality images that clearly show the most important vehicle details. This ensures your officers can find the information they need to quickly apprehend suspects, close cases, and make tomorrow safer.

Here's what you need to know about Clouddrunner

- ? Even with no witnesses around, the ALPR cameras collect vehicle data 24/7
- ? Every vehicle within a camera's view is immediately captured and logged
- ? Clear nighttime license plate and context images remove any guesswork
- ? Intuitive filter functions simplify searches even when limited information is available
- ? Officers are immediately alerted to wanted vehicles any time of the day
- ? Other vehicle details such as location, speed and color offer more vital leads

Subject: > Capture evidence with proven products that work together to secure the truth
We've got you covered
What if one, forward-thinking provider offered you reliable technology that captures evidence at the scene automatically without officer intervention.

And an easy way to secure, manage, and share evidence from scene capture to case closure?

- Body cameras that work as long as your officers do without needing to re-charge
- In-car systems that reduce officer touchpoints, capturing evidence based on triggers
- Automatic license plate recognition systems that operate on in-car systems in the background, reducing officer distraction
- Cloud evidence for efficient, cost-effective, and secure evidence management

????????????????????????????

?The Safe Fleet system is a seamless, effortless product. Once I turn on my lights, my in-car, and my body camera automatically come on. It puts the officers at ease. You couldn't ask for much more.?

Glynn Horn, Assistant Chief, Stafford PD

????????????????????????????

Book to meet with us at IACP booth #6816.

Subject: > Capture evidence with proven products that work together to secure the truth
We've got you covered
What if one, forward-thinking provider offered you reliable technology that captures evidence at the scene automatically without officer intervention.

And an easy way to secure, manage, and share evidence from scene capture to case closure?

- Body cameras that work as long as your officers do without needing to re-charge
- In-car systems that reduce officer touchpoints, capturing evidence based on triggers
- Automatic license plate recognition systems that operate on in-car systems in the background, reducing officer distraction
- Cloud evidence for efficient, cost-effective, and secure evidence management

????????????????????????????

?The Safe Fleet system is a seamless, effortless product. Once I turn on my lights, my in-car, and my body camera automatically come on. It puts the officers at ease. You couldn't ask for much more.?

Glynn Horn, Assistant Chief, Stafford PD

AutoVu Clouddrunner is an investigation system that helps law enforcement leverage ALPR to gather better nighttime leads and solve more crimes.

AutoVu Clouddrunner is a vehicle-centric investigation system that helps law enforcement and public safety agencies leverage purpose-built ALPR to gather better nighttime leads and solve more crimes.

It includes high-performance ALPR cameras with edge-based analytics that deliver optimal performance and vital vehicle evidence 24 hours a day. That means even in total nighttime darkness or the worst weather conditions, AutoVu Clouddrunner delivers unbeatable license plate read accuracy and the highest quality images that clearly show the most important vehicle details. This ensures your officers can find the information they need to quickly apprehend suspects, close cases, and make tomorrow safer.

Here's what you need to know about Clouddrunner

- ? Even with no witnesses around, the ALPR cameras collect vehicle data 24/7
- ? Every vehicle within a camera's view is immediately captured and logged
- ? Clear nighttime license plate and context images remove any guesswork
- ? Intuitive filter functions simplify searches even when limited information is available
- ? Officers are immediately alerted to wanted vehicles any time of the day
- ? Other vehicle details such as location, speed and color offer more vital leads

Detering catalytic converter theft, vandalism, robbery, and assault starts by creating an ALPR perimeter where victims are targeted most -- the public and private parking facilities in your community.

Join us on Wednesday, November 2nd, at 2 PM ET / 11 AM PT

<https://info.flocksafety.com/e/892161/3677-WN-Waikifv7SLuOqu0xzNPogw/2r5jqw8/415962784?h=SC3MN8smrxj1KY77xyEujNONwcei59IggcYxId1r0F4>

, and learn how to

Build a cost-effective virtual perimeter with ALPR that deters bad actors in parking facilities

Alert authorities to parking lot crimes in real-time

Bolster investigations and increase conviction rates with vehicular evidence

Strategically deploy ALPR to take down catalytic converter theft, organized retail crime, and violent offenses

Hope to see you there!

Join us on Wednesday, November 30th, at 2 PM ET / 11 AM PT

https://info.flocksafety.com/e/892161/1819-WN-SnxeCyAPTUaUa--OVejRcA/2tpf7z7/443062551?h=8bSvml8h52WUFkQaD3xLHXguUD1Dh9_KYIOQjikVbwI

for live training from Travis Martinez from Redlands PD and David Ballard, Solutions Consultant and former Lieutenant at Shelby County Sheriffs Office, as they cover how to:

Make a case for ALPR to your city council

Grow your budget with community fundraising and grants

Promote crime reduction and success stories in the media

We will also announce November product releases and our new sponsorship of PoliceGrantsHelp's grant assistant program, which can support your agency with grant writing services.

Hope to see you there!

Join us on Wednesday, November 30th, at 2 PM ET / 11 AM PT

https://info.flocksafety.com/e/892161/1819-WN-SnxeCyAPTUaUa--OVejRcA/2tpf7z7/443062551?h=8bSvml8h52WUFkQaD3xLHXguUD1Dh9_KYIOQjikVbwI

for live training from Travis Martinez from Redlands PD and David Ballard, Solutions Consultant and former Lieutenant at Shelby County Sherrifs Office, as they cover how to:

Make a case for ALPR to your city council

Grow your budget with community fundraising and grants

Promote crime reduction and success stories in the media

We will also announce November product releases and our new sponsorship of PoliceGrantsHelp's grant assistant program, which can support your agency with grant writing services.

Hope to see you there!

Email: sgaylor@police.gurnee.il.us

GURNEE - The Gurnee Police Department has partnered with Gurnee Mills to enhance security measures at the area's largest shopping center. Increasing safety for shoppers and employees is a top priority, prompting Gurnee Mills to add the Flock Safety Automated License Plate Reader (ALPR) system on September 13, 2022. Since its installation two months ago, Gurnee Police have made seven arrests and recovered four stolen vehicles with the assistance of the ALPR system. Earlier this year, Gurnee Mills participated in the Community Partnership for Safety program by donating money for a new police canine; they are expanding their participation with the installation of the Flock Safety cameras.

The cameras proactively prevent crime by sending a real-time alert to law enforcement when a stolen car or known wanted suspect from a state or national crime database enters the jurisdiction. The system can also send alerts if a vehicle associated with a missing person in an AMBER or Silver Alert is detected.

The ALPR system is just one example of how other Gurnee businesses and neighborhood HOAs can join the Community Partnership for Safety program. The local program encourages Gurnee businesses and residents to work together to reduce crime and maintain a safe community. Those interested in getting Flock Safety cameras for their business or neighborhood are encouraged to contact the Crime Prevention office at the Gurnee Police Department.

"We share an invaluable partnership with Gurnee Mills, and we are grateful for their support as we work together to minimize crime. Using Flock Safety is a crime prevention measure to help stop crimes in progress, provide leads to further our investigations, and discourage future crimes. Gurnee has always been a safe community, and Flock Safety is helping to keep it that way. The amount of success we've seen in the past two months is encouraging, and

we hope more businesses and neighborhood HOAs will consider installing the system. ," said Chief Brian Smith of the Gurnee Police Department.

The cameras are built by Flock Safety, a public safety technology company that helps neighborhoods, communities, and law enforcement work together to fight crime. The cameras aid law enforcement investigating crime by providing objective evidence such as license plates and vehicle characteristics and only storing the information for thirty days. Any law enforcement searches within the ALPR system require justification and are only used to solve and reduce property and violent crime. The cameras are not intended for minor traffic or parking violations, and it does not have facial recognition capabilities.

Gurnee Police Expand the Community Partnership for Safety Program Using High-Tech License Plate Readers

Gurnee – The Gurnee Police Department has partnered with Gurnee Mills to enhance security measures at the area's largest shopping center. Increasing safety for shoppers and employees is a top priority, prompting Gurnee Mills to add the Flock Safety Automated License Plate Reader (ALPR) system on September 13, 2022. Since its installation two months ago, Gurnee Police have made seven arrests and recovered four stolen vehicles with the assistance of the ALPR system. Earlier this year, Gurnee Mills participated in the Community Partnership for Safety program by donating money for a new police canine; they are expanding their participation with the installation of the Flock Safety cameras.

The cameras proactively prevent crime by sending a real-time alert to law enforcement when a stolen car or known wanted suspect from a state or national crime database enters the jurisdiction. The system can also send alerts if a vehicle associated with a missing person in an AMBER or Silver Alert is detected.

The ALPR system is just one example of how other Gurnee businesses and neighborhood HOAs can join the Community Partnership for Safety program. The local program encourages Gurnee businesses and residents to work together to reduce crime and maintain a safe community. Those interested in getting Flock Safety cameras for their business or neighborhood are encouraged to contact the Crime Prevention office at the Gurnee Police Department.

"We share an invaluable partnership with Gurnee Mills, and we are grateful for their support as we work together to minimize crime. Using Flock Safety is a crime prevention measure to help stop crimes in progress, provide leads to further our investigations, and discourage future crimes. Gurnee has always been a safe community, and Flock Safety is helping to keep it that way. The amount of success we've seen in the past two months is encouraging, and we hope more businesses and neighborhood HOAs will consider installing the system.," said Chief Brian Smith of the Gurnee Police Department.

The cameras are built by Flock Safety, a public safety technology company that helps neighborhoods, communities, and law enforcement work together to fight crime. The cameras aid law enforcement investigating crime by providing objective evidence such as license plates and vehicle characteristics and only storing the information for thirty days. Any law enforcement searches within the ALPR system require justification and are only used to solve and reduce property and violent crime. The cameras are not intended for minor traffic or parking violations, and it does not have facial recognition capabilities.

28th Annual Jon Callaghan Memorial Turkey Trot

Gurnee – The Gurnee Police and Fire departments are announcing the 28th Annual Jon Callaghan Memorial Turkey Trot, to be held on Thanksgiving morning, November 24th at 8:00 A.M. The 5k fun run/walk starts in the 4600 block of Old Grand Avenue and ends in front of Gurnee Fire Station #1 on Old Grand Ave. Refreshments are provided after the fun run in the Gurnee Community Church hall.

In the fall of 1994, the first Turkey Trot was organized as a 5K run to be held on Thanksgiving morning. Turkey Trot runners were asked to make a \$10.00 donation to the Gurnee Community Church to help fund their holiday dinner for the needy and Great Lakes military personnel. The event was sponsored by the Gurnee Police Department. About a dozen runners participated in that first event. The Turkey Trot continued each year and participation increased.

Jon Callaghan was a student at the now River Trail (O'Plaine) School in Gurnee, who passed away in 1997 after a courageous battle with neuroblastoma cancer. The event was then renamed the Jon Callaghan Memorial Turkey Trot and his parents, Mike and Kim Callaghan, became involved with the annual event. Per the Callaghan family, the funds raised have been used to help the Warren Township Food Pantry, University of Chicago Comer Children's Hospital, School District 56 special needs programs, and many others.

Each year, proceeds are also donated to the Gurnee Community Church. The Gurnee Community Church Youth Mission Trip participants raise funds for many area programs.

Any donations to the Turkey Trot are appreciated and sponsorship is welcome. Participation in the walk/run is encouraged.

Please make checks payable to the Gurnee Turkey Trot and mail to Gurnee Turkey Trot 325 N. O'Plaine Rd. Gurnee, Illinois 60031. Preregistrations are accepted until November 22nd. Anyone wishing to participate may pre-register for \$30.00 (age 10 and under runs/walks for free!) or you may register on race day at Gurnee Fire Station #1, 4580 Old Grand Avenue, or at <https://www.eventbrite.com/e/28th-annual-jon-callaghan-memorial-turkey-trot-5k-fun-runwalk-tickets-419579452437>

Long sleeve T-shirts will be available to the first 350 participants to check in on race day. Check in starts at 7:00 A.M.

Jeremy,

We're approved!

I've attached the fully executed MOU. Please have the Village accounting department send me an invoice for the \$25k and have Jon process it.

Please note, we would prefer to utilize Krause Electric for any electric hookups, where necessary. This is our preferred contractor, with preferred rates for Gurnee Mills. Please let me know if there are any concerns with this plan.

Let me know when FLOCK would like to conduct an onsite preconstruction meeting.

Thanks much!!

Memorandum of Understanding

This Memorandum of Understanding ("MOU") is between the Village of Gurnee ("Agency") and Mall at Gurnee Mills, LLC ("Owner").

Term: The effective date ("Effective Date") of this MOU shall be the last date that this MOU is executed either by Agency or Owner. This MOU shall begin as of the Effective Date and shall continue for one (1) year, unless as otherwise terminated as provided herein. This MOU will automatically renew for successive one (1) year terms unless either party terminates this MOU as provided herein.

Project Scope: Agency purchased six (6) Flock Safety Automatic License Plate Detectors (ALPR) that will be installed on Owner's shopping center property commonly known as the Gurnee Mills Mall located at 6170 W. Grand Avenue in Gurnee, Illinois 60031. The location of the ALPR must be approved in advance by Owner.

Access to Rights to Flock Services: Subject to the terms and conditions contained in this MOU, Flock has granted to Agency a non-exclusive, non-transferable right to access the features and functions of the Flock Service during the Term (as defined above), solely for use by Authorized Users. For purposes of this MOU, "Authorized Users" will mean employees, agents, or officers of Agency accessing or using the Flock Services. Agency acknowledges and agrees that Agency shall be responsible for all acts and omissions of Authorized Users, and any act or omission by an Authorized User which would constitute a breach of this MOU, shall be deemed a breach of this MOU by Agency. Agency shall undertake reasonable efforts to make all Authorized Users aware of the provisions of this MOU as applicable to such Authorized User's use of the Flock Service and shall cause Authorized Users to comply with such provisions. With the limited exception of traffic volume counts, Owner will not have access to the Flock Services or any information generated by and contained within the ALPR.

Owner agrees to:

- Allow employees of Flock Safety and Agency access to Owner's property at agreed upon times for installing, repairing, troubleshooting the detectors, and otherwise maintaining the ALPR. Owner shall not be responsible for any damage or loss to the ALPR.
- Reimburse Agency in the amount of \$25,000.00 for six (6) Flock Safety ALPRs. This is a onetime cost for the entire Term of the MOU as defined above.

Agency agrees to:

- Collect the funds from Owner to be deposited in the appropriate Village budget account.
- Maintain communication with Owner for the Term of this MOU for all purposes stated in this MOU.
- Upon request, Agency will provide Owner with traffic volume numbers from the ALPRs located on Owner's property.
- Provide periodic updates to Owner on relevant crime statistics to assess the effectiveness of the program.

Termination for convenience: Either party may terminate this MOU for convenience by giving thirty (30) days' prior written notice. Upon termination of this MOU, Agency agrees to remove the ALPR from Owner's property and will repair all damage caused by such removal.

** Special Offer Alert!

Keeping the peace starts with staying in the know. Rekor's advanced set of investigative tools combines vehicle recognition, LPR, and other data sources to provide detailed, live intelligence to dispatchers and personnel on the ground. The result is an efficient operation that keeps your community safe.

Let Rekor plan your city ALPR infrastructure! With any purchase of the Rekor Edge Series camera system, Rekor will provide a remote site survey and camera placement recommendations to ensure complete coverage over your jurisdiction.

** Special Offer Alert!

Keeping the peace starts with staying in the know. Rekor's advanced set of investigative tools combines vehicle recognition, LPR, and other data sources to provide detailed, live intelligence to dispatchers and personnel on the ground. The result is an efficient operation that keeps your community safe.

Let Rekor plan your city ALPR infrastructure! With any purchase of the Rekor Edge Series camera system, Rekor will provide a remote site survey and camera placement recommendations to ensure complete coverage over your jurisdiction.

** Special Offer Alert!

Keeping the peace starts with staying in the know. Rekor's advanced set of investigative tools combines vehicle recognition, LPR, and other data sources to provide detailed, live intelligence to dispatchers and personnel on the ground. The result is an efficient operation that keeps your community safe.

Let Rekor plan your city ALPR infrastructure! With any purchase of the Rekor Edge Series camera system, Rekor will provide a remote site survey and camera placement recommendations to ensure complete coverage over your jurisdiction.

GURNEE - The Gurnee Police Department has partnered with Gurnee Mills to enhance security measures at the area's largest shopping center. Increasing safety for shoppers and employees is a top priority, prompting Gurnee Mills to add the Flock Safety Automated License Plate Reader (ALPR) system on September 13, 2022. Since its installation two months ago, Gurnee Police have made seven arrests and recovered four stolen vehicles with the assistance of the ALPR system. Earlier this year, Gurnee Mills participated in the Community Partnership for Safety program by donating money for a new police canine; they are expanding their participation with the installation of the Flock Safety cameras.

The cameras proactively prevent crime by sending a real-time alert to law enforcement when a stolen car or known wanted suspect from a state or national crime database enters the jurisdiction. The system can also send alerts if a vehicle associated with a missing person in an AMBER or Silver Alert is detected.

The ALPR system is just one example of how other Gurnee businesses and neighborhood HOAs can join the Community Partnership for Safety program. The local program encourages Gurnee businesses and residents to work together to reduce crime and maintain a safe community. Those interested in getting Flock Safety cameras for their business or neighborhood are encouraged to contact the Crime Prevention office at the Gurnee Police Department.

"We share an invaluable partnership with Gurnee Mills, and we are grateful for their support as we work together to minimize crime. Using Flock Safety is a crime prevention measure to help stop crimes in progress, provide leads to further our investigations, and discourage future crimes. Gurnee has always been a safe community, and Flock Safety is helping to keep it that way. The amount of success we've seen in the past two months is encouraging, and we hope more businesses and neighborhood HOAs will consider installing the system.," said Chief Brian Smith of

the Gurnee Police Department.

The cameras are built by Flock Safety, a public safety technology company that helps neighborhoods, communities, and law enforcement work together to fight crime. The cameras aid law enforcement investigating crime by providing objective evidence such as license plates and vehicle characteristics and only storing the information for thirty days. Any law enforcement searches within the ALPR system require justification and are only used to solve and reduce property and violent crime. The cameras are not intended for minor traffic or parking violations, and it does not have facial recognition capabilities.

** Special Offer Alert!

Keeping the peace starts with staying in the know. Rekor's advanced set of investigative tools combines vehicle recognition, LPR, and other data sources to provide detailed, live intelligence to dispatchers and personnel on the ground. The result is an efficient operation that keeps your community safe.

Let Rekor plan your city ALPR infrastructure! With any purchase of the Rekor Edge Series camera system, Rekor will provide a remote site survey and camera placement recommendations to ensure complete coverage over your jurisdiction.

Email: sgaylor@police.gurnee.il.us

GURNEE - The Gurnee Police Department has partnered with Gurnee Mills to enhance security measures at the area's largest shopping center. Increasing safety for shoppers and employees is a top priority, prompting Gurnee Mills to add the Flock Safety Automated License Plate Reader (ALPR) system on September 13, 2022. Since its installation two months ago, Gurnee Police have made seven arrests and recovered four stolen vehicles with the assistance of the ALPR system. Earlier this year, Gurnee Mills participated in the Community Partnership for Safety program by donating money for a new police canine; they are expanding their participation with the installation of the Flock Safety cameras.

The cameras proactively prevent crime by sending a real-time alert to law enforcement when a stolen car or known wanted suspect from a state or national crime database enters the jurisdiction. The system can also send alerts if a vehicle associated with a missing person in an AMBER or Silver Alert is detected.

The ALPR system is just one example of how other Gurnee businesses and neighborhood HOAs can join the Community Partnership for Safety program. The local program encourages Gurnee businesses and residents to work together to reduce crime and maintain a safe community. Those interested in getting Flock Safety cameras for their business or neighborhood are encouraged to contact the Crime Prevention office at the Gurnee Police Department.

"We share an invaluable partnership with Gurnee Mills, and we are grateful for their support as we work together to minimize crime. Using Flock Safety is a crime prevention measure to help stop crimes in progress, provide leads to further our investigations, and discourage future crimes. Gurnee has always been a safe community, and Flock Safety is helping to keep it that way. The amount of success we've seen in the past two months is encouraging, and we hope more businesses and neighborhood HOAs will consider installing the system.," said Chief Brian Smith of the Gurnee Police Department.

The cameras are built by Flock Safety, a public safety technology company that helps neighborhoods, communities, and law enforcement work together to fight crime. The cameras aid law enforcement investigating crime by providing objective evidence such as license plates and vehicle characteristics and only storing the information for

thirty days. Any law enforcement searches within the ALPR system require justification and are only used to solve and reduce property and violent crime. The cameras are not intended for minor traffic or parking violations, and it does not have facial recognition capabilities.
