Subject: Re: Public records request S135544

I would imagine that if the request/report was made in reference to a county public school library, then it would be within the Sarasota County School Police Jurisdiction.

I'm not aware of such a report made to us of that nature. Generally speaking, all non-criminal complaints that are made and of something that is on a school campus, during normal school hours, gets referred to the School Board Police Dept. since it is their function.

I'm not sure about the casual county public library that isn't on a school campus. I would imagine it would be a call screen if someone did make a complaint but one of this nature usually doesn't justify a police report to my knowledge. Types of books that are housed via local government are usually are managed by the same... Maybe Sarasota County would receive such complaint?

I hope that helps.

Subject: Public records request S135544

Good Afternoon,

Records received a public records request for the following:

- " 1.) Any police report, complaint (including by parents, students, citizens, or officials), or investigative records concerning the content of any books, materials, or events at a library. This includes any public library or school library.
- 2.) Any photographs, videos, or other evidence/documents referenced in the report, complaint,

or investigative records.
this request is limited to records generated on or after January. 1,2020.”

I was wondering if you had any input or information that would help answer this request or would be able to point me in the right direction that would be greatly appreciated.
Attached is the records request.

Thank you,
Joanna
